Dear David,

In all the events of last Saturday's glorious day, none was more deeply moving than the six of you standing in front of the 400 admirers of The Horse accepting Nina's tribute.

And what applause! The people recognized who had made The Horse so magnificent. This was their way of congratulating you and expressing their gratitude.

For myself and the members of the Board of Trustees, I salute you for the devotion with which you poured out your energy and artistic talents. I thank you for the lasting contribution you have made to a great sculpture.

Sincerely,
