April 22, 2003

Dear David,

It was indeed fortunate for me and for the U.S. Historical Society that you were the sculptor of choice for the Statue of Lincoln in Richmond. Not only did you create a unique national treasure, you were a friend and passionate artist determined to sculpt the very best work possible – and you did. We have received nothing but praise and admiration for your work.

It was pleasant seeing you, your twin sister and your family here in Richmond. I only wish that we were able to spend more time together.

I hope we may have the opportunity to work together on a future commission; let's talk soon. Thank you again for your superb statue of Lincoln and Tad.

Cordially,

Robert H. Kline  
Chairman
